

KATTGUARD GR36 Surface Mount Guardrail

sales@fixfastusa.com fixfastusa.com 888 637 7872

The **KATTGUARD GR36 Surface Mount Guardrail** is designed for sloped roof projects and applications where higher wind loads, ice build-up and snow loads are typical. The **KATTGUARD GR36** system can be fastened down with the **KATTPOINT Anchor System**. The **KATTPOINT Anchor** is supplied with project specific roof membrane pre-attached to ensure a waterproof connection and maintain the warranty. The **KATTPOINT** is approved by all major manufacturers. This system can be easily customized on-site to suite specific site requirements.

Features

- Manufactured of high tensile aluminum
- Modular system facilitates infinite configurations
- Can be easily customized on site to suit application
- Lightweight easy for handling
